

CENTAC® AIR COOLERS

CTR- Clean, Test, and Repair

Are you experiencing high air temperatures, leaking coolers, or even compressor surging?

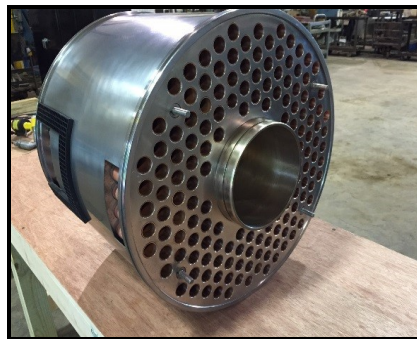

If so, these could all be results of dirty air coolers. Maintaining clean and efficient air coolers is critical in the operation and performance of your Centac® air compressor.

Centrifugal Technologies is dedicated to providing our customers the finest compressor services in the business. We perform our Centac® air cooler cleaning process in-house with no outsourcing. Therefore, we offer our customers the best service and optimum response time for cleaning, testing and repairing your Centac® air coolers!
